**Strategic Planning:**

The Delta Sigma Chapter of the Rho Chi Pharmaceutical Honor Society will encourage its members to maintain the highest standard of code and conduct. The Delta Sigma Chapter also supports and encourages the members in their intellectual endeavors. This year we decided to focus on encouraging intellectual achievement and contributing to the development of intellectual goals. Our specific goals for this year were participating in at least one community organized event, raising funds for future chapters, and encouraging intellectual endeavors for current members and future members.

Community Service Activity outside of the academic institution (e.g. volunteering at a long-term care facility, providing health information to patients/citizens in the community, etc.)	Somerset Community Field Day	Rho Chi volunteered at the 5 <sup>th</sup> Annual Somerset Community Field Day. The member that attended assisted with medication/disease state education and carbon monoxide education in partnership with UMES' chapter of APhA and the Somerset County Health Department.	This activity contributing to the development of intellectual leaders and promoted the highest ethical standards by not only giving our members an opportunity to educate members of the community on medications and disease states, but also gave community members young and small the opportunity to increase their knowledge and interest in the field of pharmacy. The volunteer activity also fostered collaboration by gathering different organizations and having them come together for a common cause: public health.	<1	1	60+	N/A

**Evaluation/Reflection:**

The 2017-2018 academic year was successful, but challenging. A new academic project was developed through the the Residency Prep 101 program we initiated this year. This program was a huge success. The majority of UMES' second year students commented on how helpful it was, reached out for more materials, and asked if we could develop a similar informational program for fellowships in industry pharmacy.to come in and talk about fellowships in industry as well. In addition to this program, one member of Delta Sigma was able to attend the 5th Annual Somerset Community Field Day where she was able to educate community members on various medications, disease states, and carbon monoxide poisoning. That being said, while we are proud of what we were able to accomplish, we were hoping to accomplish more. Due to the accelerated nature of UMES' three-year pharmacy program, most of our current members were in various parts of the country on APPE rotations throughout the year. Consequently, we experienced difficulties scheduling meetings via phone and in-person. Therefore, our goal for Delta Sigma in the upcoming year is to strengthen communication within the chapter, continue our Residency Prep 101 program, implement a new fundraising event, and develop a community outreach initiative. Through the motivation, enthusiasm, and drive of our newly inducted members, the Delta Sigma Chapter will continue to improve and develop new projects to benefit our school of pharmacy, our local community, and the profession of pharmacy as a whole.
